Paying your municipal account

Paying by debit order

It is possible to pay your municipal account with a debit order. Your bank account number, identity number and municipal account particulars are needed to activate this method of payment. You will need to specify the following:

- The maximum amount that you will allow to be deducted from your bank account to pay your municipal account
- The date of transfer of the amount from your bank account to the Municipality's bank account. It could be –
 - the 1st or the 15th of each month;
 - the end of each month; or
 - the due date on your municipal account statement.

The advantages of paying by debit order:

- Your payment to the Municipality is made electronically.
- Your municipal account is credited in advance – even before the funds are actually transferred from your bank account.
- Your account statement is still mailed to you and reflects whether or not the deductions were adequate.

Bank deposits

When paying an account by means of a bank deposit (over the counter or electronically), make sure that the municipal services account number is entered accurately. Follow the easy steps below to ensure that the payment made is allocated appropriately:

Please do not select it.

Paying at an approved external pay point

You can pay at any post office or any store that has an Easy Pay counter, such as Pick ‘n Pay or Shoprite/Checkers. Hand your municipal account to the cashier so that he or she can enter your municipal account number correctly. If this number is not entered correctly, your municipal account will not be credited with the payment; the credit will be allocated to a suspense account and recorded as an unknown payment. If this happens, you will have to submit an original receipt as proof of payment to enable the suspense account administration to allocate the payment to your account.

Pay at a municipal office

You can pay your account at cashier points at municipal offices. If you have received a letter of demand or summons regarding your account, you will have to pay at a municipal office. If you are in arrears you are not allowed to pay at venues other than municipal offices. Notify the Municipality’s debt collectors of your payment on the same day, and they will not take further steps to collect the outstanding debt.
